The purpose of this meeting is to discuss the status of the settlement agreement commitments in the Oregon CZARA case. EPA and NOAA entered into a settlement agreement with NWEA committing to a schedule by which we would make a decision on Oregon's CZARA program by May 15, 2014. We have been informed by Oregon that the program changes Oregon intended to make so that we could approve the program are no longer on track and some are not possible. We have set up a meeting with the Governor's office to discuss potential options for changing course and getting back on track to avoid a disapproval.

Dave Croxton and I would like to discuss the matter with you prior to the upcoming meeting with the Governor's office.

Christine Psyk
